## PROFESSIONAL SUMMARY

---

Software Developer with 3 years of experience specializing in building robust backend architectures and dynamic frontend solutions. Extensive expertise in the Python, Node.js, and React ecosystems, as well as Linux server administration and cloud automation. Passionate about solving complex problems through clean, optimized code, with a current focus on accelerating development cycles and innovation through the strategic integration of Artificial Intelligence tools.

## WORK EXPERIENCE

---

**Fullstack Developer** 09-2024 – Present  
Industrias Pacha S.A.C. Lima, Peru

- Develop and update modules for the Odoo ERP platform across both Enterprise and Community editions.
- Design and build robust REST APIs utilizing Node.js (Express, TypeScript) and Python (FastAPI, Flask).
- Implement advanced security schemes using Access Tokens with JWT and rate limiter mechanisms.
- Manage and integrate relational and non-relational databases using PostgreSQL and MongoDB.
- Develop client-side interfaces (Frontend) with React and Astro, ensuring seamless integration with APIs.
- Ensure code quality through the design and execution of unit, integration, and End-to-End (E2E) testing.
- Automate deployment workflows via CI/CD using GitHub Actions, GitLab Pipelines, and Dokploy.
- Manage the deployment of containerized APIs and websites with Docker on Linux servers hosted on AWS infrastructure.
- Implement native integrations with AWS cloud services including EC2, S3, CloudFront, SNS, and SES.

**Developer Intern** 04-2023 – 04-2024  
GRUPO ZHC Lima, Peru

- Developed a Sales System in C# using WinForms with SQL Server as the database and Entity Framework as the ORM.
- Provided technical and functional support to end-users to ensure successful adoption of the new system.
- Executed data migration processes (ETL) from customer Excel files to the centralized database using Python scripts.
- Performed preventive maintenance on company PCs and laptops, optimizing both operating systems and hardware.

## EDUCATION

---

**Software Development** 07-2019 – 12-2024  
SENATI Peru

- Degree Level: Associate's Degree / Technical Degree – Graduated.

## SKILLS AND EXPERTISE

---

- **Languages and Frameworks:** Python (Intermediate), Node.js (Intermediate), SQL (Intermediate), TypeScript, C#, React, Astro, Express, FastAPI, Flask, Odoo.
- **Artificial Intelligence (AI):** OpenCode, Antigravity, Spec-Driven Development, Harness Engineering.
- **Infrastructure and Databases:** Linux, Docker, AWS (EC2, S3, CloudFront, SNS, SES), PostgreSQL, MongoDB, SQL Server.
- **Tools:** Git, GitHub, GitLab.
- **Languages:** English (Technical Writing, Basic Spoken).
